FSC Target Logic

The target for each district region shown on this map can be considered as an "indicative" monthly target. FSC calculates it based on the population figures given for the IPC phases as assessed by the FSNAU. For strategic objective one (Improved Access to Food & Safety Nets), the target includes: 100 percent of IDPs; the rural and urban populations in IPC phases 3 (Crisis) and 4 (Emergency); and 5 percent of the urban population under the IPC Phase 2 (Stressed).

Partners should treat these target figures as indicative, but it does not prevent them from going beyond the target if the local context warrants it.

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the United Nations.
