

# What I would like to receive from the cluster (top 2 in your list)

**Programming interventions to address food and nutrition security in a sustainable manner from cluster participants> Programing experiences to make livelihoods adequately resilient.**

**Emerging sector trends and funding opportunities are being flagged out across humanitarian and FS/dvlpt space**

**monitoring delivery of assistance from all FSL cluster partners**

**Interventions or technologies aligned to FS issues, which partners can demonstrate and validate relevancy across the 5 AEZs coming from researchers, industries, academia, secondary and primary food**

**Updates**

**Access to possible funding streams**

**Updates on funding opportunities relevant to the cluster' focal areas**

**Capacitation of cluster members on emerging critical issues impacting food productivity and security.**

**Continued coordination of data collection on specific/focused thematic FS aligned work streams and the food/sector relevant practices**

**Presentations of assessments, studies related to FS (both humanitarian and development-oriented ) from partners**

**Learn about local projects and initiatives at field level**

# What expertise/resources can my organisation put at disposal

**Sustainable agricultural technologies to build household resilience**

**Coordination, Networking platforms from national, regional to international forums across FS partners, multi-sector players and GoZ.**

**Sustainable resilient farming systems technics and agroecology for vibrant locally-led adaptation approaches**

**Assist in co-chairing if needed (but also depends on our HR resources in 2022)**

**Community (vulnerable persons) empowerment and skills transfer approaches capacitation and also extension techniques/knowledge capacity-building strategies**

**Linkages with small mechanisation innovators/engineers for improved uptake of appropriate technologies; R&D plus market players institutional linkages for enhanced sustainability of community-led interventions**

**Livelihood and Emergency programming expertise including expertise in gender, community engagement (community visioning), cash transfers and productive assets interventions.**
