THE ROLE AND ORGANIZATIONAL CONTEXT

The position is based in Rome (Italy) and reports to the global Food Security Cluster Programme and Policy Officer.

'Information Management' (IM) and Data Analysis (DA) involve collecting, analyzing, and sharing information through high-quality information products. These are designed to assist food security cluster partners to make programmatic, evidence-based and strategic decisions regarding aspects of a humanitarian crisis. Sound and effective Cluster Coordination relies on IM & DA.

The global Food Security Cluster Information Management and Data Analysis team supports Country Offices through the provision of technical backstopping on data analysis, mapping, and visualization. The team is also responsible to produce guidance documents and material for field-based IMOs and produce global IM products.

The focus of this position is to strengthen data collection, analysis, and reporting at the global level.

KEY ACCOUNTABILITIES (not all-inclusive)

- Lead the development of, and maintain up to date, the gFSC data warehouse, a repository centralizing and aggregating Food Security operational and analytical data.
- Map, explore and leverage/integrate relevant global datasets and reports, from FSC partners and beyond (e.g., IPC, FAO GIEWS, WFP Hunger Map, etc.).
- Conduct analysis of global data on food security: needs and targets, implemented responses, financial resources, etc., as well as the correlation between them, trend analyses, etc.
- Disseminate findings for strategic decision making, through the development of online visualization tools, feeding quality information into gFSC advocacy initiatives and documents, and preparation of presentations for different fora (if/as requested).
- Support the capacity building of FSC field teams through collective and one-on-one training, and contribute to the development of training and learning materials with a focus on food security data analysis and country contributions to gFSC data analysis initiatives.
- Contribute to the update of the FSC Information Management (IM) Handbook and Toolbox as needed (templates and guidance) with focus on food security data analysis and country contributions to gFSC data analysis initiatives.
- Provide on-demand backstopping for FSC Information Management Officers.
- Participate in relevant global fora as requested.
- Any other duties as required.
