
Logistics Cluster Support to Sudan Crisis

**LOGISTICS
CLUSTER**

Air transport

- To address the most immediate needs, the Logistics Cluster will coordinate the transportation of critical cargo by air Ex-Juba to Malakal, Paloich and Renk.
- Special cargo such as fuel, generators, vehicles, fuel etc may exceptionally be supported through air transport on free to user basis.
- Currently, emergency diesel fuel is airlifted on behalf of UNHCR and more rotations to conduct this week.
- Service requests are received for medical items to be transported to Renk on behalf of WHO. Tentatively this will be airlifted on Thursday this week.

River transport

- The air lifts are limited to critical cargo only and any bulk cargo request shall be moved by river on full cost recovery by the partner using WFP's On-Demand Service (ODS).
- Bulk cargo will be transported Ex-Bor and partners to pre-position cargo in Bor by road.
- When required the Logistics Cluster coordinates ad hoc road convoys to border locations based on physical access and security. The cluster has regular road convoy schedules but departure schedules for this support will be modified to suit organization's request.

Storage

- For critical cargo, the Logistics Cluster may loan partners Mobile storage unit (6x8, 10x24, 10x32).
