## DISCUSSIONS

### (1) All action points were completed

### (2) Inter-cluster nutrition-sensitive training package finalisation:

Training modules were finalised and posted in the DropBox. Ayadil will send cover note for country cluster coordinators and package links to all who were present at the preparatory workshop in June 2017. Group agreed that the training should be no longer than 3 days and that the ICNWXG will work with the CCs to suggest a package adapted to their needs in-country including the relevant clusters – WASH, health and education at minimum. Training should aim to come out with actionable workplans to take back to the country – this should take ½ day of the training.

Translation of package was raised – done once pilots have been undertaken. May request partners to support translation? ICNWXG members willing to support piloting include Nora, Muireann, WVI (if in their priority country), gFSC, GNC and Tech RRT (Andi), particularly if it can be planned with a deployment.

(3) **gFSC partners meeting bring together the 5 WGs will take place on 28-29 May in Rome.** Aim is to make the focus areas more operational. WGs will present their activities to date and present 2018 plans. Representatives from each WG are requested. ICNWXG will have FAO – Zara and Darana, Antony - WVI, Nora – WFP, Andrea – gFSC, Ayadil, Richard and Cyril are tbc. Kate can support any preparation but not sure to be in Rome.

(4) **Cash and nutrition updates:** WVI are undertaking some field oriented evidence building on cash transfer programmes related to nutrition using their programme experiences. Antony will confirm if the Concept Note for the project can be shared and circulate it accordingly. ACF and WFP undertook an evidence review for cash for nutrition outcomes followed by a workshop with stakeholders to provide

recommendations for further needs for evidence. Reports are in the very final stages and will be circulated with ICNWG members when ready.

- (5) Presentation for GNC meeting on 28-29 March in NY:** The training package was presented and well received – 4.7/5 on the evaluation form. Participants asked about implementation plans and costs. Suggestion to develop a concept note for the roll-out of the package which can also be used to solicit donor interest.
- (6) Change of co-chairs:** Antony agreed to take over the chair or co-chair. After the gFSC partners meeting a rep from the gFSC partners will be designated. Current chairs will remain until that time.
- (7) Next Teleconference:** Agreement reached on first Tuesday of every month from 14.00-15.00 CET. *However, due to 1 May holiday in Europe, the next meeting is exceptionally scheduled for 15 May at 14:00 CET.*
