Data Visualizations

West Africa Food Security Trends 2014—2020 (CH Countries only)

This visualization explores food insecurity figures from the Cadre Harmonisé across time and space, down to the lowest geographic unit available per country (Adm2—department/ circle/etc.), including transboundary regions of Lake Chad Basin and Liptako Gourma.

https://analytics.wfp.org/#/site/Public/views/WestAfricaFoodSecurityTrends_Adm2/NatlFoodSecTrends

West Africa Food Security Trends 2014—2020 (CH Countries + C.A.R.)

Combines 18 Cadre Harmonisé countries and Central African Republic and explores food insecurity figures at national level over time.

https://analytics.wfp.org/#/site/Public/views/WestAfricaFoodSecurityTrends_Adm0/RBDFoodSecurityTrends

Violence, migration and food insecurity in West Africa, 2014—2020

Explores the relationships between food insecurity (CH figures), conflict and migration (IDPs) in West Africa, including hotspot areas such as Liptako Gourma.

https://analytics.wfp.org/#/site/Public/views/FoodInsec_Violence_IDPs/FoodIns_ViolentEvents_IDPs

RBD Price Monitoring, Updates automatically on a monthly basis

Provides a regional overview of the price variations for key staples and is available in English and French. From this page, country price monitors can be accessed by clicking on the green country icons. If the icon is grey, the country dashboard is not yet available, but will be in the future.

On the country price monitor bulletins, price trends are available by commodity and market using drop down menus and hover functionality, and the Alert for Price Spikes (ALPS) system is integrated for certain products and markets.

Analytical Tools & Resources

Seasonal Explorer
http://dataviz.vam.wfp.org/seasonal_explorer/
Assesses performance of current and past rainfall seasons, its timing/intensity compared to average, and the impact on vegetation at the subnational level for most countries. Time series datasets available for download for most sub-regions, going back to 1981 for rainfall and 2002 for vegetation.

Economic Explorer
http://dataviz.vam.wfp.org/economic_explorer/prices
Explores latest economic indicators including food prices, currency exchange rates, inflation rates, etc. Time-series food price data available for download by administrative areas (country, province) and markets for most countries where WFP operates.

Reports Explorer
https://dataviz.vam.wfp.org/Reports_Explorer
Provides access to all country assessment reports and other reports of interest.
