Standards are more important than ever

- Agriculture is an essential service that sustains and saves lives
- Limited resources demand more efficient and effective interventions
- Primary impact of Covid-19 is health; the secondary, *persistent* impact is economic
Humanitarian Standards Partnership

Sphere Standards
Child Protection Minimum Standards
Livestock Emergency Guidelines and Standards
Minimum Economic Recovery Standards
Minimum Standards for Education
Minimum Standard for Market Analysis
The SEADS Standards will enable the best possible programming for agricultural livelihoods in emergencies.
The SEADS Standards will be useful for:

- Humanitarian responders
- Humanitarian policy and decision-makers
The SEADS Project

1. Launch and promote the SEADS Project to raise awareness
2. Create buy-in and demand for the SEADS Standards
3. Release and roll-out the SEADS Standards to begin the adoption process
SEADS Steering Group

- Ugo Bernini, International Committee of the Red Cross
