The ongoing conflict in North-East Nigeria has left more than 1.8 million people displaced in almost 2,052 locations across the six most affected states in the region (Displacement Tracking Matrix – DTM, report RDWY), with 56% of the IDP population being children and 93% of the population (1,692,771 individuals) being in three states (Borno, Adamawa and Yobe). Borno continues to host the majority of IDPs (1,428,947) followed by Adamawa (466,605) and Yobe (116,619). 32% of IDPs (592,452 displaced individuals or 111,551 households) live in 207 IDP sites (camps, collective centers and transit centers) and 1,240,290 individuals or 214,459 households in 1,845 host community sites. Three LGAs (Abadam, Gumzal, Marte) in Borno State remain inaccessible to humanitarian actors with little or no information on the living conditions of IDPs in those locations.

**Challenges:**

Limited space for construction of shelters as well as repeated storms and security incidents pose challenges for the shelter & CCCM response. Moreover, with the rainy season approaching, financial support is urgently required to scale-up site management capacities via continuous monitoring of needs and gaps, ensuring site improvements through drainage as well as engineering work. This is also connected to the challenge linked to the prepositioning of NFI and Shelters, with a response expected to be critically hampered in key locations with limited accessibility during the rainy season and limited shelter response capacities due to limited funding. With weakening capacity of some camp management agencies due to recent influx of IDPs, there is a need to continue strengthening the camp management capacities for improved and dedicated camp management structures. Since the CCCM/DMS activities are being implemented with funding received in 2016 (HRP 2016), continuous funding is urgently required to support, extend and improve CCCM/DMS interventions going forward. Similarly, lack of dedicated funding in areas of return where security conditions allow the return of IDPs and refugees to be feasible prevent the achievement of durable solutions.

**Response:**

Shelter response in Ngala (196), Damboa (676), Banki (280), Gwoza (200), Nganzai (63), Dawari host community in Adamawa (300) and site plans produced in key locations. Site viability assessments in ten camps vulnerable to floods, in Monguno, Ngala, Konduga, Jere, Bama, Maiduguri, Dikwa and Gwoza, with site drainage improvement initiated in 3 sites. Shelter/NFI interventions have been provided to 112,574 people while 592,998 people are being monitored under CCCM/DMS interventions, through registration, relocation, dedicated site facilitation in 45 camps and CCCM roving team in hard to reach location in 39 camps under funding received in 2016. Sector assessments were conducted in Bama as well as in Adamawa State, in view of response interventions. Four coordination meetings took place to support LGA level coordination and CCCM mechanisms are being extended to most hard to reach areas. Two trainings covering CCCM and DTM were conducted for site facilitators, NEMA, SEMA and LGA Desk Officers respectively, by sector partners.

**Overview:**

- 4,150 Emergency shelters and 1,304 Reinforced shelters completed.
- 9,550 Improved and basic NFI Kits distributed by humanitarian partners to a total of 65,804 beneficiaries so far this year.
- 232,053 individuals biometrically registered since January 2017.

**Key figures (HRP 2017)**

- Population in Need: 2,300,000
- Shelter sector target population: 1,040,000
- Funding Required: $70.3 Million
- Funding Received: $4.8 Million
- People reached by Shelter-NFI Interventions: 112,574
- DMS/CCCM sector target population: 800,000
- Funding Required: $11.6 Million
- Funding Received: $0*(1)

**Funding Required:**

- DMS/CCCM sector target population: 800,000
- Funding Required: $11.6 Million
- Funding Received: $0*(1)

**Bimetric Registration by Location Type**

- Formal Camp: 232,053
- Host Community: 123,344
- Informal Camp: 40,751

**Shelter-NFI Response by Location Type**

- Camps: 60,060
- Return Areas: 42,959
- Host Communities: 9,555

---

1. CCCM/DMS activities implemented in 2017 with funding received in 2016 (HRP 2016) and requiring urgent financial support for maintaining, improving and extending the structures. Activities include people living in sites receiving site facilitation support and CCCM mobile teams, under 2016 funding. 2. Sum of individuals reached by the sector does not include NFI related Wash Kits (3,850), as opposed to last month.

**Beneficiaries of Shelter/NFI Interventions: Demographics**

- Girls: 35,461
- Boys: 30,282
- Women: 21,952
- Men: 17,787
- Elderly: 7,092

**Key Figures:**

**Shelter – NFI**
- People in Need: 2.3 Million
- Targeted People: 1 Million
- Funding Required: $70.3 Million
- Funding Received: $4.8 Million

People reached by Shelter-NFI Interventions: 112,574

5/10 Partners Reporting

**DMS/CCCM:**
- People in Need: 2.3 Million
- Targeted People: 0.8 Million
- Funding Required: $11.6 Million
- Funding Received: $0

People reached by DMS/CCCM Interventions: 590,858

1/2 Partners Reporting

**Response Highlights:**

- 4,150 Emergency shelters and 1,304 Reinforced shelters have been completed
- 9,550 Improved and basic NFI kits have been distributed by humanitarian partners to a total of 65,804 beneficiaries.
- 232,053 individuals were biometrically registered since January 2017.
- About 12,931 IDPs were relocated in new settlements.
- 84 sites hosting 453,734 people supported by site facilitation and mobile teams.
- 3 Sites are currently undergoing site improvement and there are plans for 7 more camps.

**Beneficiaries of CCCM Interventions: Demographics**

- Girls: 186,120
- Boys: 158,941
- Women: 115,217
- Men: 93,356
- Elderly: 37,224

**DMS/CCCM (People Reached)**

YOBE: 540,448
Borno: 50,410

Websites:

1. This month’s sum of individuals reached by the Sector does not include IDPs who received Wash Kits (18,550) – unlike last month.

2. Activities implemented in 2016 (i.e. mobile site facilitation, registration), with funding received in late 2016 (HRP 2016). Continuous funding is required under the HRP 2017 for DMS/CCCM interventions.

3. This # includes people living in sites with site facilitation support And Mobile teams.
