OUR VISION

To be the Myanmar's leading AgriFin-Tech company in building ethical, transparent, and sustainable supply chains.

OUR MISSIONS

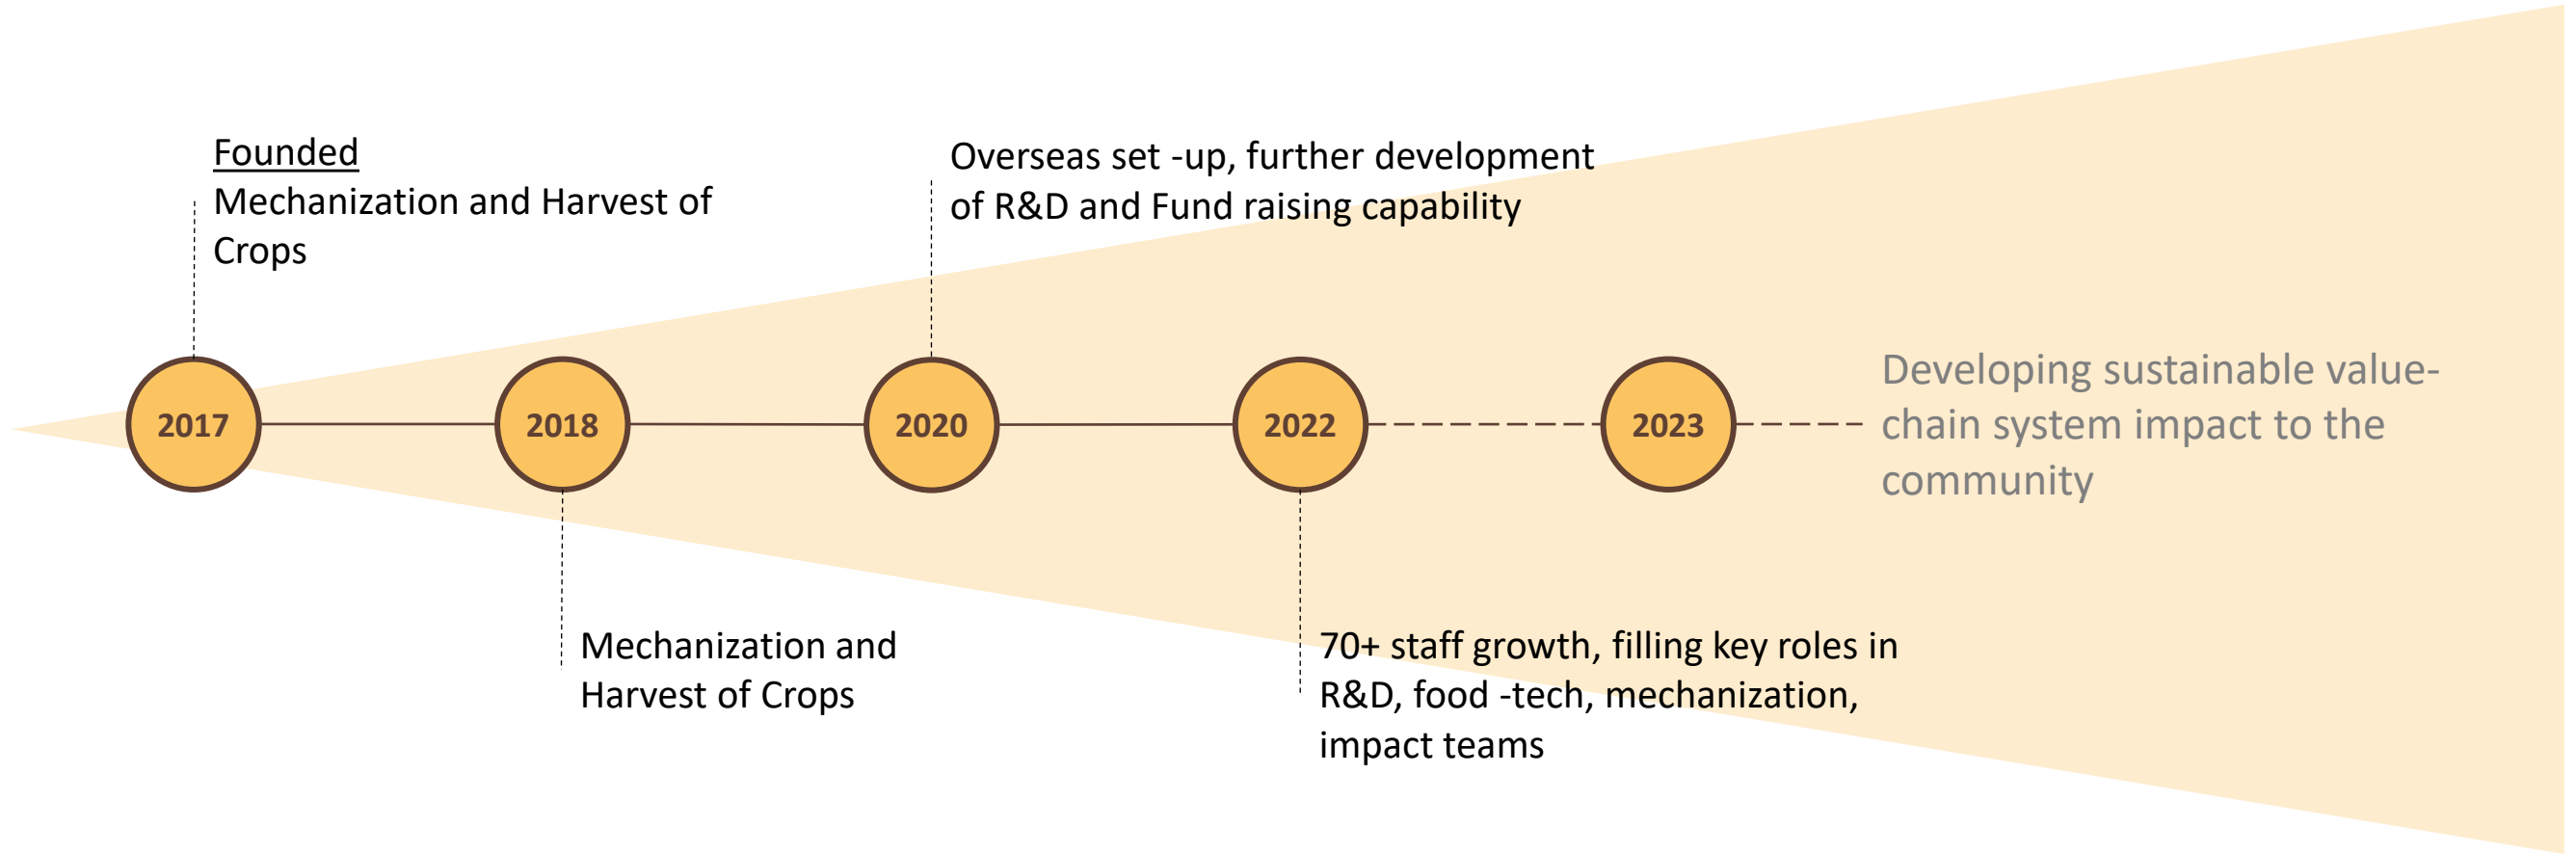

Provide better access to finance and inputs among smallholder farmers.

Improve income security and the position of smallholder farmers in the value chain through better production practices.

Empower women and youth farmers to be recognized as valuable chain actors and benefit from the market, income and job opportunities

Smallholders less experience climate risks and limited influence on the market or price.
