YEMEN: FSAC Dashboard Jan - Dec 2018

Yemen is currently the world’s largest humanitarian crisis. In 2018, an estimated 22.2 million people - 75 per cent of the population were in need of humanitarian assistance. A total of 17.8 million people were food insecure with 8.4 million people facing severe hunger. Needs were mainly driven by the escalation of the conflict, restricted movement of commodities, reduced levels of commercial imports, internal displacements, disrupted livelihoods, limited income opportunities, and an alarming depreciation of the Yemeni Rial. The food security response in Yemen is currently the biggest emergency operation in the world. Despite the difficult operating environment, cluster partners (including donors) actively dedicated their time and resources to assist people in priority districts across all 22 governorates.

FSAC Activities in 2018

Overview

- Emergency Food Assistance
  - Distributing (In kind, cash, voucher).

- Livelihoods Assistance
  - Providing access to emergency agricultural livestock or fisheries kits, and longer-term livelihoods restoration support.
