Emergency Food Assistance in February 2018

- The number of assisted persons based on a monthly cluster target of 8.4 million
- A total of 7.2 million beneficiaries (86% of the monthly cluster target of 8.4 million beneficiaries) were assisted through emergency food assistance (in-kind, Cash transfers & Voucher transfers) across 19 governorates in Yemen
- Cluster partners managed to assist beneficiaries with emergency food assistance in all target governorates, except for Aden where verifications of beneficiaries is ongoing, and humanitarian response is planned to start in May
- WFP provided food assistance to 740,018 beneficiaries through the Commodity Voucher through Traders’ Network (CV-TN) approach in Taizz, Sana’a, Amanat Al Asimah, and Al Hudaydah Governorates

Major Challenges Faced by FSAC Partners in February 2018

- Scarcity of food and fuel commodities continued in local markets despite the fact that sea ports was opened since late of December 2017, this was mainly due to the disruption of market financial system and additional custom taxation on commodities coming from southern ports
- FSAC activities were only 2% funded by 28th of February 2018
- High commodity prices and increments in the minimum food basket values leading to spiraling needs. This is due to the poor level of imports and deprecating value of the Yemeni Rial, coupled with malfunctioning market systems
- The escalation of the conflict in key governorates has led to disruptions in partners’ activities and new increased waves of IDP influxes
- WFP provided food assistance to 740,018 beneficiaries through the Commodity Voucher through Traders’ Network (CV-TN) approach in Taizz, Sana’a, Amanat Al Asimah, and Al Hudaydah Governorates
- The number of assisted persons based on a monthly cluster target of 8.4 million
- A total of 7.2 million beneficiaries (86% of the monthly cluster target of 8.4 million beneficiaries) were assisted through emergency food assistance (in-kind, Cash transfers & Voucher transfers) across 19 governorates in Yemen
