The Humanitarian Pooled Fund (HPF) mobilises and channels resources to humanitarian partners to respond to the critical needs of millions of people affected by the devastating humanitarian crisis in Yemen. The Fund operates within the parameters of the Humanitarian Response Plan (HRP), with the objective to expand the delivery of humanitarian assistance in partnership with national and international NGOs. Since the conflict has intensified in March 2015, aid agencies have received more than $55 million from the YHPF for critical life-saving assistance, including through the provision of healthcare, clean water, sanitation services, food supplies or shelter materials.
