МИРНЕ НЕБО

CHARITABLE ORGANIZATION
"CHARITY FOUNDATION "PEACEFUL SKY OF KHARKIV"
EXISTS SINCE FEBRUARY 24, 2022.

The total number of people we support with hot lunches is **5,621+** of which:

- 59.2% are female,
- 42.3% are male,
- 2.8% are children under 6 years old.

Providing 168,360+ meals monthly.

We also provide **20,000** food and hygiene kits to support the population of the Kharkiv oblast every month.

Our Foundation has 4 kitchens:

- 3 in the city of Kharkiv (they provide assistance to locals and residents of the gray zone in the north of the Kharkiv oblast who are unable to cook on their own);
- 1 in the city of Izyum (provides assistance to residents of the de-occupied city).

Heroiv Kharkiv Avenue, 259

• feeds 1,287+ people

Challenges we face:

- winter problems;
- road and access issues;
- “creating of dependency”
- limited resources.

The needs we have:

- 100 kW generators;
- the possibility of opening new locations (Balakleia, Kupyansk);
- food products.

FSLC & iMMAP capacity building update & upcoming training

HPC Training

- ▶ Four training sessions were delivered: two sessions in English and two sessions in Ukrainian
- ▶ In total, 42 participants attended the sessions from 22 organizations

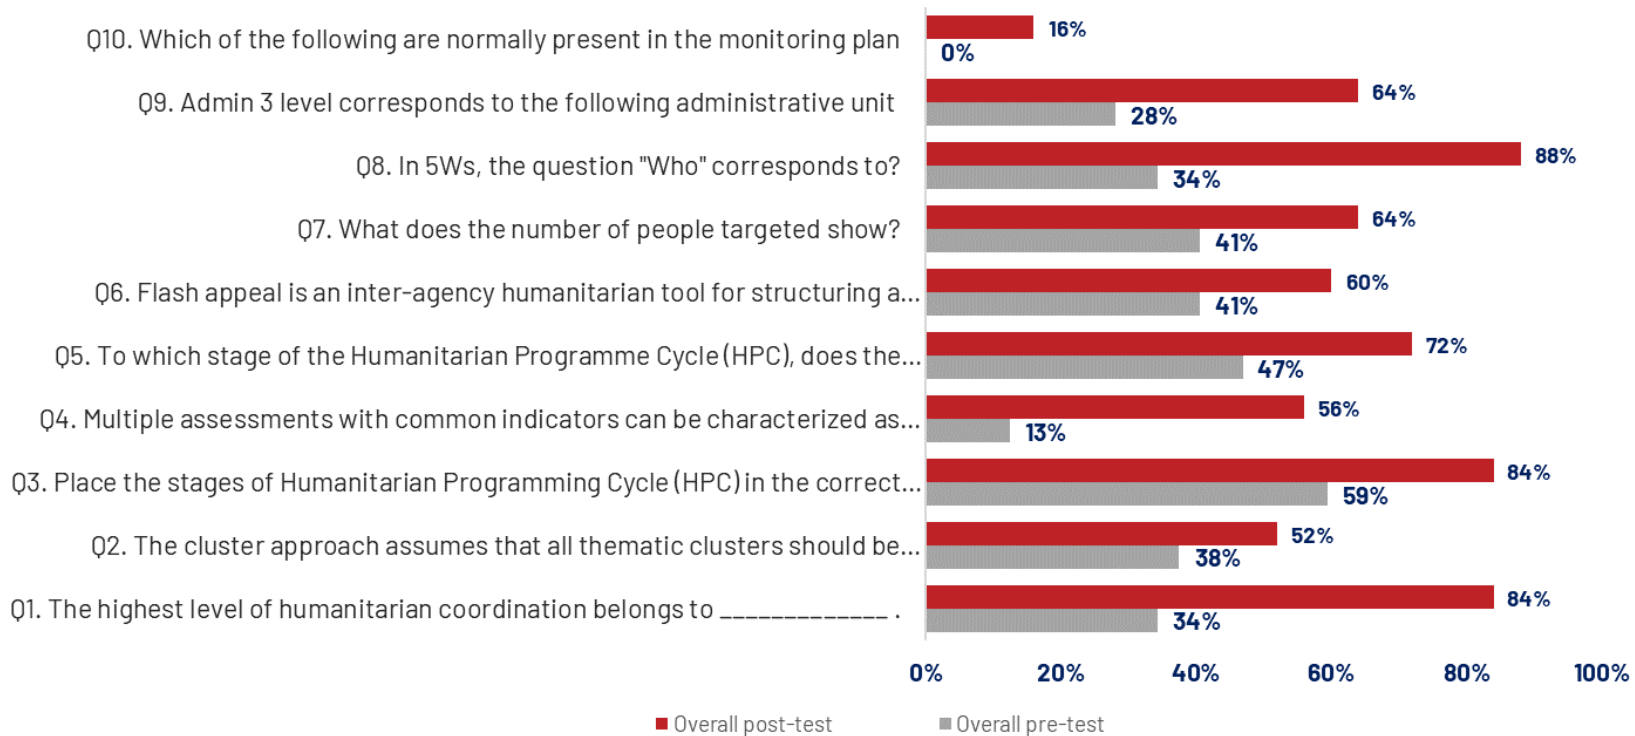

HPC Training

Pre- and post- training survey

Comparing pre- and post-training survey results, improvement in the share of the correct answers was observed across all questions, with an average increase of **31 percent**.

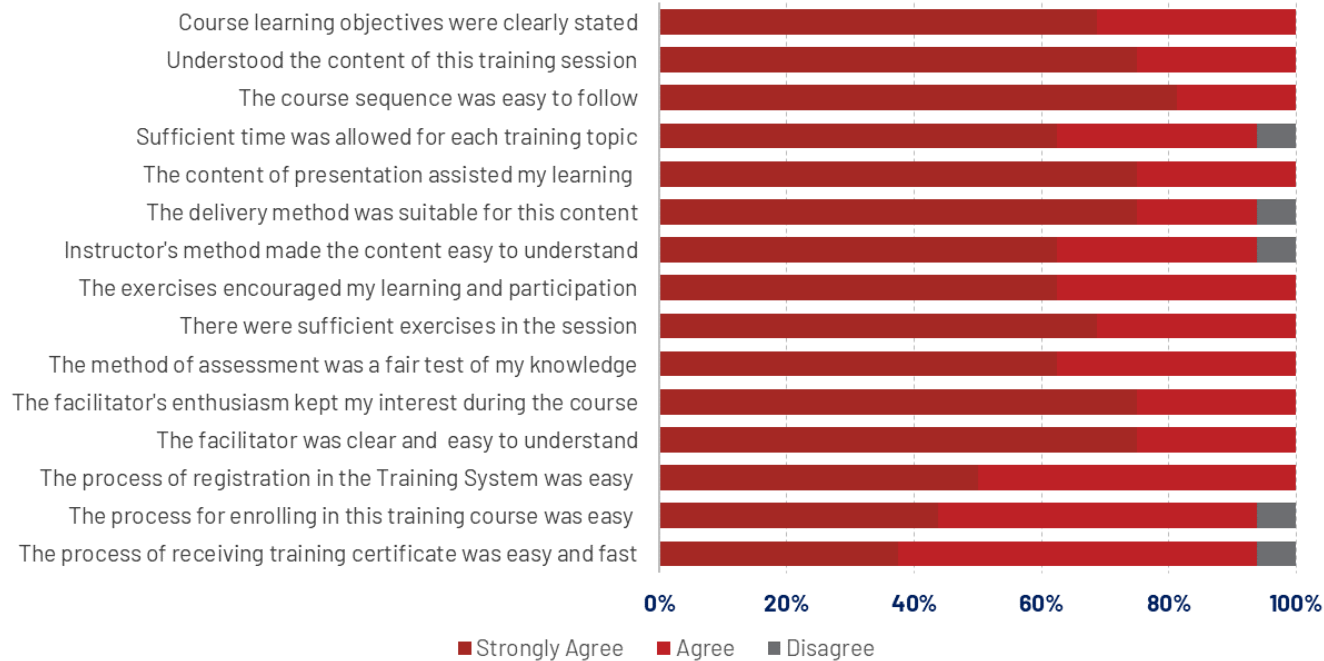

Share of correct answers per each question (all groups)

HPC Training

Training Evaluation

Answer Percentage per Question

Overall, 65 percent of the responses reported that they strongly agree with all the statements, while 33 percent reported that they agree, and two percent reported that they disagree.

Upcoming Trainings

Coordinated Needs Assessments

- Assessment Types
- Roles and Responsibilities
- Assessment Working Plan
- Questionnaires
- Assessment Design Methodologies
- Sampling
- Data Collection
- Techniques

Duration: 5-6 hours

Pre-requisites: None

Language: English and Ukrainian

What is a need?

The word **Need** expresses **circumstances in which something is necessary, or that require some course of action; necessity**

"The basic human need for food"

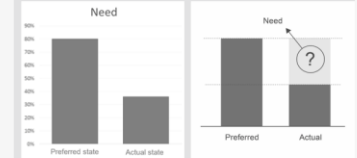

Where is the need?

Examples:

Response-defining need
IDPs need psychosocial support and access to protected water sources, and attend weekly hygiene sessions

Gap-defining need
IDPs are thirsty and have much less water available than before they were displaced

- A lack of....
- A deficiency in...
- A problem of...
- An issue related to...
- A gap in...
- A shortage of...

Types of Data - Definitions

Primary data

are data gathered by the **needs assessor** directly from the respondent.

They may be collected through:

- ✓ Household (HH) surveys
- ✓ Key Informant (KI) interviews
- ✓ focus group discussions (FGD)
- ✓ visual observation (e.g. flyovers, transect walks, etc.)

Secondary data

information collected outside the scope of the current assessment.

It can come in the form of:

- ✓ reports
- ✓ news
- ✓ trends
- ✓ internet
- ✓ maps and all other form data/information

Secondary data is called as such for various reasons:

- ✓ Data obtained by somebody else
- ✓ Data obtained has already gone through one layer of analysis
- ✓ Data obtained is used for a different focus or objective (e.g. using the latest census to estimate current population figures)

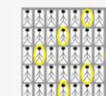

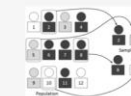

Probability Sampling (Representative): Types

Random Sample

Random sample is a sample that is chosen randomly. **Random samples are used to avoid bias and other unwanted effects.** Random sample is not as simple as just picking 100 people from 10,000 people. You have to be sure that your random sample is truly random!

Stratified Random Sample

Stratified random sampling is used when your **population is divided into strata** (characteristics like male and female or education level), and you want to include the stratum when taking your sample.

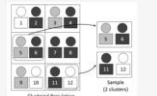

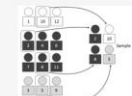

Systematic Sampling

One way to get a fair and random sample is to **assign a number to every population member and then choose the Nth member from that population.**

Cluster Sampling

Cluster sampling is used when **natural groups are present in a population.** The whole population is subdivided into clusters, or groups, and random samples are then collected from each group.

Upcoming Trainings

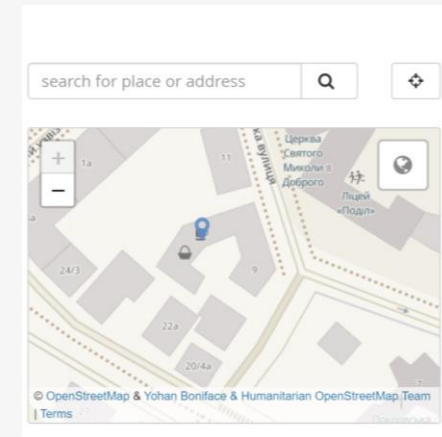

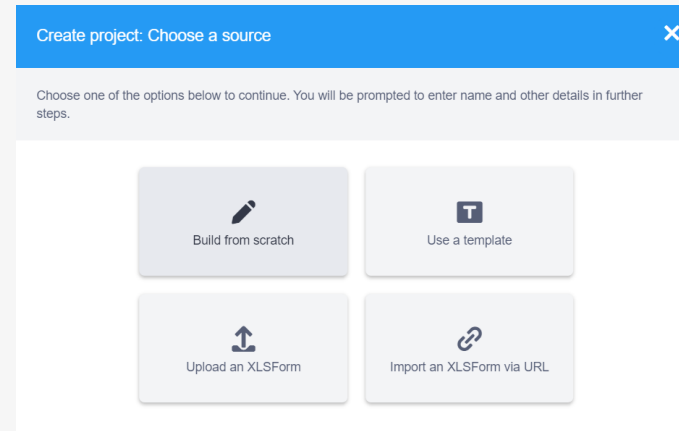

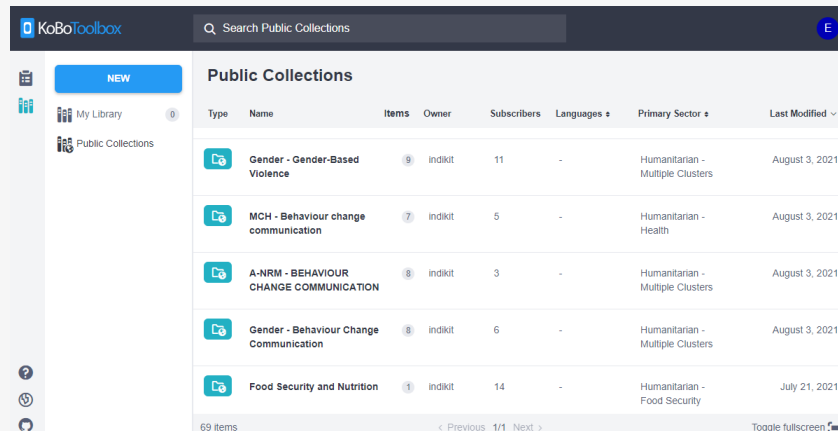

Data Collection

- Kobo ToolBox
- Creating Projects
- Layout and Preview
- Skip Logic
- Validation Criteria
- Integrating Mobile Data Collection with KoboCollect
- Building XLS Form
- Data Quality Assessment

Duration: 4 Hours

Pre-requisites: None

**Language: English and Ukrainian
(Please note that software is only available in English)**

Upcoming Trainings

Excel (Basic/Intermediate)

- Basics (Interface, Arithmetic Operations, Cell Referencing, Conditional Formatting)
- Functions (Common Functions, Text Functions, IF Functions, VLOOKUP, AND, OR and NOT Functions)
- Tables & Pivot Tables
- Charts
- Slicers
- Data Cleaning Techniques

Duration: 4-5 Hours

Pre-requisites: Excel Software

Language: English and Ukrainian

Any Other Business
