### SUMMARY OF ACTION POINTS

No action points to review

No	PROCEEDING	ACTION POINTS
1	<p>Welcome, Opening Remarks and Round of introductions</p> <p>The meeting commenced at 10:00am and was followed by self-introduction</p> <p>The meeting was chaired by Mr. Amu Anthony NFPS, (FMARD) /Food Security Sector Chairman)</p>	
2	<p>Review of Previous Action Points</p> <p>No action points for review</p>	

3	<p><b><a href="#">Update on the upcoming October 2022 CH - Cadre Harmonize plan</a> - by NPFS/FMARD</b> <b>The tentative timeline and analysis center's for October 2022 CH Cycle.</b> Various State Level CH Analysis Workshop ----- 28th Oct. to 6th November, 2022 National Validation &amp; Consolidation workshop --- 7th to 10th November, 2022 Result Communication/ Presentation -----11th November, 2022.</p> <p><b>Data Collation/ Collections.</b> WFP, NBS, NPFS, and partners are currently conducting Essential Needs Assessment to generate key FNS indicators in BAY states, Sokoto, Zamfara, Katsina, Benue, and Taraba states. Data collection and analysis for refugees in Cross River and Benue state.</p> <p><b>Our Request.</b> Partner's financial support of the CH analysis workshop. Partners should maintain the same staff that has participated in the CH analysis. Data should be shared 2weeks before the various state CH level analysis</p> <p>For the full presentation, please click <a href="#">here</a>.</p>	
4	<p><b><a href="#">Flooding in Nigeria - impact on population and cropland</a> – By WFP</b> <b>WFP's Geospatial Support Unit Internal deployment of ADAM Floods system</b> ADAM (Automated Disaster Analysis and Mapping) is a corporate system maintained by the Geospatial Support Unit to provide geospatial services to WFP and the larger humanitarian community. ADAM Tropical Storm and Earthquake have been operational since 2012 and 2014 and have since delivered analysis and visualization during the first critical 72 hours of a disaster.</p> <p><b>ADAM Floods will cover the three phases of flood disaster timeline</b> The design of ADAM Floods products is built on the nature of the flooding disaster to provide information at each phase. In cooperation with the Analysis and Early Warning Unit (AEW), ADAM Floods will deliver a flood alert map (dashboard) with 3-5 days lead time for very large river basins. A flood monitoring system can be activated on demand to produce a weekly flood summary from coarse resolution satellite-based information with daily global coverage.</p> <p><b>Question:</b> what's the impact of the flood in the northeast? <b>Answer:</b> If the flood continues there will be a shortage of food. <b>Question:</b> Can this model work for a small /large river? <b>Answer:</b> Yes. <b>Question:</b> The data collected is it cumulative or for specific periods? <b>Answer:</b> It is cumulative.</p> <p>For the full presentation, please click <a href="#">here</a></p>	

5	<p><b><u>Livestock Restocking Programme in Borno, Adamawa, and Yobe States: Activities, Challenges, and Opportunities</u> – By FAO</b></p> <p><b>Strategic Objectives:</b></p> <p>FAO adopts a holistic approach to integrating different livestock components in the program through:-</p> <ul style="list-style-type: none"><li>Restoration of livelihoods of crisis-affected populations</li><li>Building resilience</li><li>Enhancing agricultural productivity</li></ul> <p><b>Programmatic Objectives</b></p> <ul style="list-style-type: none"><li>To support the saving of lives and the saving of livelihoods of HHs affected by BH crisis</li><li>To protect key livestock-related assets</li><li>To rebuild key livestock-related assets</li></ul> <p><b>Types of interventions</b></p> <ul style="list-style-type: none"><li>Restocking (provision of livestock: bull, goat, ram, poultry)</li><li>Provision of feed, water, cash, and veterinary support.</li></ul> <p><b>Veterinary support: Challenges identified by FAO</b></p> <ul style="list-style-type: none"><li>Inadequate epidemiological information for effective design and implementation of mass vaccination and limited involvement of stakeholders in the project design phase.</li><li>Insecurity and inaccessibility of the affected area, and budget constraints affect coverage.</li></ul> <p><b>Recommendation</b></p> <p>The sector deeply encourages the government and non-government to scale up efforts in the area of resilience and strengthening of households in land access, and productivity.</p> <p>For the full presentation, please click <a href="#">here</a></p>	
6.	<p><b>Sector Updates</b></p> <p><b><u>FSS Food Assistance Taskforce</u></b></p> <ul style="list-style-type: none"><li>GHO – HNO 2022 activity-based costing.</li></ul> <p><b><u>CH Food Security Monitoring</u></b></p> <p>REMINDER SENT: Food Security Sector &amp; Nutrition Sector - Joint Call for Data for October 2022 Cadre Harmonize (CH) Analysis (Data submission by 03 October 2022)</p> <p>Together, we strongly encourage partners to take part in this exercise – sharing available data and sending relevant technical staff to the state-level analysis workshops. For more information on the CH framework.</p> <p><b><u>Agricultural Livelihoods Working Group</u></b></p> <ul style="list-style-type: none"><li>As of August 785 thousand people were reached out of 3.5 M (Pin)</li><li>Flooding impacted farmlands in BAY states.
