[Cash Barometer survey result- Ground Truth Solution \(GTS \(15 min\)\)](#)

Introduction

- Ground Truth Solution (GTS) is an independent accountability mechanism funded by the German Federal Foreign Office supports innovative (GFFO), covering Nigeria, Somalia, and CAR.
- Perception-based
- Mixed methods:

- Quantitative surveys
- Qualitative research
- Dialogue, training, course-correction

Ability of CVA to meet people's basic needs

Does the CVA you receive cover your most important needs?

What do you do if CVA does not meet all your needs in a month?

Discussions:

Data Validation: GTS will continue engage on cummmunity feedback. Their report will be available by the end of November or December.

5 **Integrating Child Protection and Food Security workshop result report - PI/FSS (15min)**
Joint Workshop – 30-31 August 2022, Maiduguri, Borno State

Background

- Across all population groups, food is the top priority (93%) followed by livelihoods and income generating activities.
- Children and adolescents are rarely consulted or engaged in food security responses.
- Adolescents' girls and boys make up 31.3% and 27.5% of the food insecure population; acute malnutrition rate for adolescent girls in BAY states is 42%.

Discussion Findings:

- **CP risks associated with food insecurity** have not been prioritized for action by humanitarian actors.
- Several actions are being taken to mainstreaming CP into FSL programming, but there is room for improvement, particularly around children's participation and empowerment.
- **Referrals** of vulnerable children into FSL programming was highlighted as a challenge. Good practices include setting aside a certain number of program participants to be referred to from CP actors.
- Limited collaboration between CP and FSL actors in developing **vulnerability or selection criteria**.
- Participants identified several existing forms of collaboration within **integrated CP-FSL programs** (e.g. positive parenting training for households receiving IGA or VSLA). However, these are few examples of comprehensive programs.

Opportunities for collaboration

Recommendations

- Joint needs assessment and data collection on children's protection and food security needs
- Capacity-strengthening for FSL actors on **child protection mainstreaming**
- Detailed mappings and **referral pathways** for CP and FSL actors
- **Coordination meetings** at field-level between CP and FSL actors
- Development of **technical tools and resources**, such as measurement tools and guidance notes

Next Steps

- Joint development and tools and resources to promote collaboration (ongoing)
- Piloting and review of tools (Nov)
- Webinar to share finalized resources and good practices (Dec/Jan)

6 Sector Updates
